Assalamu Alaikum wa Rahmatullah

We are writing this mail with deep sense of pain that several districts of Bangladesh has been severely affected recently by flood causing extreme distress to the lives of several million people. Houses, crops, fishing farms, agricultural products, and cattle foods have been damaged dangerously. Many people are living under open sky and suffering from lack of food and safe drinking water. On the other hand, with water going down as an improvement of the situation in some places, people are becoming affected by water borne diseases. Despite government's efforts, there is still large demand for support to the affected people. It is foreseen, with the flood many people will lose their livelihood sustainability and eventually may be ruined if there is no adequate support.

Having analyzed the worsening situation, Masjid Council has taken an emergency steps to support the affected people living particularly in hard-to-reach areas of Manikgonj, Jamalpur, Kurigram and Faridpur districts. Masjid Council has planned to support 4000 flood affected families with food packages costing each package BDTK 600.00.
